# SVRI FORUM Special Session: Integrating culture into interventions to prevent GBV

Dr. Vandana Sharma  
Dr. Jennifer Scott  
Dr. Shelley Lees

# Objectives

- To generate dialogue and compile collective expertise on best practices for integrating culture into GBV prevention interventions
  - Explore what is understood by “culture”, “cultural factors” and “cultural competence” in the GBV field
  - Discuss a systematic mapping of IPV interventions and culture
  - Case studies and group work to think about adaption of GBV interventions to various cultural contexts or settings
